REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/25/04 has been entered.

Applicant's amendment has been entered and applicant's remarks carefully considered. The rejections of record in the final rejection have been overcome in the following manner.

1) The rejection of claims 1-50 under 35 U. S. C. 112 second paragraph has been withdrawn upon consideration of the amended claims. The rejection of "powder" as being indefinite has been overcome because the proviso added to the independent claims defines the relationship between the powder and the ink in functional terms in that the combination permits the imprinting of the image onto the soft surface (embodied in the specification as PVC and/or derivatives) at a lower temperature than had been done in the prior art. See Sammis.

2) The rejection of claims under 103 as being obvious over Sammis in view of Hurnik et al. has been overcome by applicant's arguments regarding the application temperature used in Sammis, which is much higher than that used in the present invention.

3) The new matter rejection has been overcome by applicant's amendment to the time and temperature in the provisos added to the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
